

August 10th Vendor Fair – West Park Long Term Care

This August, West Park Long Term Care opened its doors to families and residents to come and meet our amazing vendors, contractors and community partners. Special guests included Hunt's Healthcare, Freestyle Libre, Alzheimer's Society, TENA and Achieva Health. Residents, staff and family members were greeted with our very own West Park tote bags filled with goodies to collect

additional information from each vendor as they walked around the fair. Special performance by Robert D. Cruz in our courtyard patio playing hit songs from the 70s and 80s to listen to during the event. Visitors of the Vendor Fair were also entered in a raffle draw to win one of our door prizes, graciously donated by our vendors – ranging from a dinner out at the Keg to Bluetooth speakers and aromatherapy diffusers. Congratulations to our winners and many thanks to our community partners and vendors for attending the event! The entire management team was also present to provide support and answer any questions related to our home. Special thanks to the Recreation Team for the decoration and set up which helped in the smooth success of the occasion, we hope to continue to open our home again to more community events in the upcoming future!

For more information on any of our vendors please speak to our Recreation Programs Manager, Karla Ting, for direct contacts to our partners.
