WEST PARK HEALTHCARE CENTRE

COVID-19

PATIENT AND COMMUNITY UPDATE

West Park is following the direction of the Ministry of Health and the guidance of Toronto Region.

**COVID-19
CASES**

**0 patient cases
1 staff case**

To join the patient and community email list and receive these updates via email, send your request to publicrelations@westpark.org

We have received new guidance as a result of early evidence showing that the Omicron variant is more transmissible including a change to Visitors and Essential Care Partners. Please see attached.

There are new restrictions to outings/day passes; please see the attached for more details.

For everyone's safety group programming and activities will be limited to no more than 10 people (including patients and staff), space permitting. Some of our programming may return to virtual in the interim.
