COVID-19 UPDATES

As COVID-19 cases in the community continue to trend downward and the hospital continues to see very few cases, we are scaling back COVID-19 communications for staff and patients. Going forward, West Park's COVID-19 Patient and Community Update will be sent on the first Wednesday of the month, instead of weekly. If you have questions regarding West Park's COVID-19 response or communications, please email COVID19@westpark.org.
