

September 7, 2021

Dear Patients & Families,

On August 17, 2021 the Provincial Government released Directive #6 which requires public hospitals to develop and implement a COVID-19 vaccination policy that applies to employees, physicians, contractors, volunteers and learners by today, September 7, 2021.

West Park's vaccination policy is similar, in principle, to other hospitals across the province and will require all of the groups mentioned above to be fully vaccinated for the purpose of ensuring West Park is safe environment for patients, families and staff.

The vast majority of our employees, physicians, contractors, volunteers and learners are already vaccinated and we thank everyone for their willingness to contribute to a safe environment for all.

We have notified all of those who perform their work on our campus that vaccination is required and those who still need to access the vaccine will be supported to do so in order to be fully vaccinated by November 1, 2021.

We look forward to being able to announce 100 per cent participation in the vaccination program.

Best regards,
